Communication skills

Working both as a technician and waiter for the past 3 year I have developed great communication skills. Due to everyday interaction I consider having very good contact skills with any kind of person. Moreover as an undergraduate student I have taken part to many group projects that helped me develop teamwork spirit.

Organizational / managerial skills

As an undergraduate student that works too, I believe that I have gained good organizational skills. I manage to organize my daily program in order to be able to work an 8 hour shift, attend to every lecture at University and take part to extracurricular activities.

Computer skills

With my passion for computer science i have managed to gain great knowledge of various programming languages (C, C++, Java, Php, PL/SQL, Javascript, Matlab) and many Tools (Matlab, MySql, Oracle Database, Eclipse IDE, Netbeans IDE, Microsoft visual studio, Argo UML, Android SDK). Last but not least, I had the opportunity to use some of the most known Java frameworks (Spring, Hibernate etc.).
